

BPM12

BATTERY-POWERED LIVE SOUND MIXER

Overview

The BPM12 is a battery-powered compact mixer that's designed to be the perfect companion for our range of battery-powered speakers.

It offers up to 18 hours of battery life on a full charge, and features a USB-A port to charge your phone or tablet to keep the music going.

Beyond the battery, the BPM12 is a flexible modern mixer with a rich feature set and extended connectivity. It offers 12 channels and 10 mic preamps, plus Bluetooth®, USB-C, and 1/8" media inputs. The USB-C port also enables the mixer to function as a class-compliant stereo audio interface.

Equally ready for live sound or studio recording, it also features two monitor outputs, a zone/subwoofer output, 16 adjustable effects, an assignable 9-band graphic EQ, and much more.
